# Expressive Arts & Design

## Creating with Materials

Make simple models which express their ideas.

Use their imagination as they consider what they can do with different materials.

Explore paint, using fingers and other parts of their bodies as well as brushes and other tools.

Start to make marks intentionally.

Make imaginative and complex 'small worlds' with blocks and construction kits.

Draw with increasing complexity and detail.

Explore colour and colour mixing

Show different emotions in their drawings and paintings—happiness, sadness, fear etc.

Join different materials and explore different textures

Develop their own ideas and then decide which materials to use to express them.

Create closed shapes with continuous lines, and begin to use these shapes to represent objects.

Use drawing to represent ideas like movement or loud noises.

Return to and build on their previous learning, refining ideas and developing their ability to represent them.

## Being Imaginative & Expressive

Enjoy and take part in action songs, such as Twinkle Twinkle Little Star.

Explore a range of sound-makers and instruments and play them in different ways.

Remember and sing entire songs.

Take part in simple pretend play, using an object to represent something else even though they are not similar.

Begin to develop complex stories using small world equipment.

Sing the melodic shape (moving melody such as up and down, down and up) of familiar songs

Sing the pitch of a tone sung by another person.

Respond to what they have heard, expressing their thoughts and feelings.

Create their own songs, or improvise a song around one they know.

Play instruments with increasing control to express their feelings and ideas.

Develop storylines in their pretend play.
